

Cleaning tips

Bathroom

- Fixtures
 - If possible, dry fixtures after every use with a cloth
 - Cleaning agents with added descaler (e.g. Frosch Badreiniger, Antikal)
 - Aerators should be descaled regularly in vinegar concentrate
- Bath tub, shower basin and sink
 - Cleaning agents with added descaler (e.g. Frosch Badreiniger, Ajax, cream cleaner should only be used with bath enameled bath tubs)
- Toilette
 - Toilet cleaner (e.g. Domestos, WC-Ente)

Kitchen

- Worktops
 - Kitchen cleaner (depending on material)
- Steel surfaces
 - Cleaner for steel surfaces (e.g. Stahlfix)
- Glass ceramic (ceran) surfaces
 - Clean with water or a special cleaner for ceran surfaces (e.g. Ceraclean or Cera-Fix)
- Oven
 - Oven cleaner (e.g. Sidol, K2r)
- Coffee machines/ kettles/perlators
 - Descale regularly with diluted vinegar concentrate

Flooring

- PVC, laminate, tiles
 - General floor cleaner (e.g.: Der General, Meister Proper)
- Parquet flooring
 - Use special cleaners depending on the finish
- Marble floors
 - Use special non-acidic cleaners
- Carpets
 - Hoover regularly; stains should be removed with stain re-movers (e.g. Vanish) or by a professional cleaning company

Please be aware that using acidic or the wrong cleaning agents can cause permanent damage to surfaces of appliances, equipment and flooring.
